Description

- Rugged stainless steel and ABS plastic for years of dependable service
- Easy LED display programming
- Retrofit to older models
- Long or short drop

- Standard or E/Z open chassis
- Design makes it virtually "unstringable"
- Adjustable selectivity for fine tuning to reject problem slugs.
- Built-in coin switch
- Water resistant
- Single slot.
- Individual sensitivity adjustment for each coin channel.
- Accepts US quarters and dollars, tokens, Canadian and Foreign coins
- Non-jamming with a new coin chute design
- Chassis opens to provide clear access to coin path
- Returns all rejected coins and returns coins inserted during a power outage
- Electronic coin switch credits each accepted coin with no mechanical micro switch needed
