Description

- Single slot, patented Triple Coin Comparator matches any of 3 samples while rejecting virtually all other coins and slugs
- Individual sensitivity adjustment for each coin channel
- Accepts US quarters and dollars, tokens, Canadian and Foreign coins
- Water resistant and sealed to prevent damage
- Low maintenance with a simple mechanical design with only one moving part and no mechanical adjustments
- Non-jamming with a new coin chute design
- Chassis opens to provide clear access to coin path
- Returns all rejected coins and returns coins inserted during a power outage
- Electronic coin switch credits each accepted coin with no mechanical micro switch needed
